Who We Are

Cashbook Finance is an Invoice Finance company established in accordance to the Financial Conduct Authority in the UK.

We support the growth of ambitious start-ups and SMEs who are tired of waiting 30, 60, or 90+ days for payment.

With our dynamic and expert team, our company not only provides classical invoice finance services but also produces specially designed solutions by taking an innovative approach that satisfies the expectations of clients in the best way possible.

What We Do

Invoice Finance

Invoice Finance can be either a short or long-term funding option to release cash from your outstanding invoices.

With the emerging of New Funding Providers, it is now possible to fund just a single invoice in order to borrow money against the amount that is due from your clients.

If you find yourself waiting to be paid for the work you've done, or need an additional cash injection to help with your growth plans, then Invoice Finance is the best way to help you manage your cashflow and focus on developing your business.

Is your business suitable for Invoice Finance?

Yes: provide goods and/or services to other businesses.

Yes: issue your customers with credit terms of between 30 and 90 days.

Yes: have strong credit management and control reporting tools.

Yes: have been financially viable for a minimum of 6 months.

Yes: prefer to manage your credit control.

We provide a financial solution as unique as your business!
